# STOCKS UP AND STRONG

The Creeping Movement of Past Week Becomes Steady and Upward.

#### CHEERING CROP PROSPECTS

This Has Much to Do With the Improvement—Large Sales of Stocks.

(By Associated Press.) (By Associated Press.)
NEW YORK, Aug. 15.—The creeping movement of prices, which was the characteristic of last week's stock market developed into a strong and comprehensive upward movement to-day. The volume of transactions rose above the previous total of any day during the present movement. The market was broad and the strength and activity were well distributed, practically all divisions of the market sharing The market was broad and the strength and activity were well distributed, practically all divisions of the market sharing in the advance. There was no important development in the news to-day or since the close of the market last week, but the early tone gave convincing evidence of something like a crystalization of confidence in the future of the market. Outside orders through commission houses accumulated over Sunday were alleged to be larger than heretofore. London was also a buyer here to an important extent. The basis of the growth of confidence here was quite clearly the feith that the country is to enjoy prosperous crops. The corn and cotton carriers showed the greatest effects from this faith, but St. Paul as a wheat carrier, with a large spring wheat traffic, was not excluded. The lost conspicuous future of the market, however was list diversion into the new field of the trunk lines and coalers. These groups have been comparatively neglected, while the crops have been of dominant interest. United States Bisel preferred was the conspicuous largered in the day's movement. Southern Pactice was also under constant pressure to take profits and made its highest price on the running quotations and at the opening. The Metropolitan fractions were feverish and irregular throughout the day, in spile of the violent advance of interborous fransit on the curb. The unsettling influence of these exceptions to the day's strength gained force, and the amount of spiling for profits also diminished the disposition of the professionals to support the market. This made the closing casy at reductions running to a point for the active stocks from the high prices of the and were irregular. Total sales, per value, \$2.76.000. United States bonds were

Special Stock Letter.

(Ey Thomas Branch and Company.)

NEW YORK, August 15.—The stock market throughour the day has shown a buoyant tendency, and in some instances considerable strength. London was a purchaser of international issues to the extent of twenty to twenty-five thousand shares, principally on balance. Business for the account of commission houses was more in evidence than for days past, in the main, taking new positions on the buying side, which gave the market a somewhat broader appearance. Notwithstanding the fact that at times during the day, the market assumed a desultory semblance, securities reacted but slightly, and on any moderate declines, buyers appeared, causing rallies without much apparent effort in the majority of issues.

During the afternoon Metropolitan securities and Metropolitan Street Rallway again showed an advancing tendency, on what appeared to be professional buring Coultracts for short position have been covered to a considerable extent throughout the day, and there has, naturally, been evidence of profit-taking on the advance, yet offerings were all readily absorbed. Just prior to the closeloft it market, some moderate realizing was in syldence, resulting in declines of about 1-2 per cent. from the best prices.
